

WALLA WALLA FRIENDS MEETING STATE OF THE MEETING REPORT

February 21, 2021

Walla Walla Friends have been a preparative meeting since 1980 under the care of Eastside Monthly Meeting of Bellevue. After several of our regular attenders moved away recently, and the death of Nancy Ball, one of our founders and a long-time meeting officer, we are no longer meeting regularly.

Following the disbursal of substantial funds left to the meeting by Nancy's estate, as well the bulk of our Special Projects fund that we established through war tax resistance, we have currently discontinued our meeting's annual budget process. At this point we simply encourage those participating in the meeting to make such individual donations to Quaker and other organizations as they deem best.

While we are not ready to lay our meeting down yet, since it has filled an important role in the community and our individual lives for many years, at this point it essentially remains on standby status, pending future needs and callings.
